Plant Foods for Human Nutrition **48**: 369–371 (December 1995).

Contents of Volume 48 (1995)

Volume 48, No. 1

F.V. Dunkel, A. Serugendo, W.M. Breene and S. Sriharan: Influence of insecticidal plant materials used during storage on sensory attributes and instrumental hardness of dry edible beans (*Phaseolus vulgaris* L.) 1–16
K. Vijayakumari, P. Siddhuraju and K. Janardhanan: Effects of various water or hydrothermal treatments on certain antinutritional compounds in the seeds of the tribal pulse, *Dolichos lablab* var. *vulgaris* L. 17–29
S.S. Arogba, A. Ademola and M. Elum: The effect of solvent treatment on the chemical composition and organoleptic acceptability of traditional condiments from Nigeria 31–38
S. Joshi and V. Agte: Digestibility of dietary fiber components in vegetarian men 39–44
C.A. Nti and W.A. Plahar: Chemical and biological characteristics of a West African weaning food supplemented with compea (*Vigna unguiculata*) 45–54
J.C. Onweluzo, K.C. Onuoha and Z.A. Obanu: Certain functional properties of gums derived from some lesser known tropical legumes (*Afzelia africana, Detarium microcarpum* and *Mucuna flagellipes*) 55–63
S.K. Yadav and S. Sehgal: Effect of home processing on total and extractable calcium and zinc content of spinach (*Spinach oleracia*) and amaranth (*Amaranthus tricolor*) leaves 65–72
J.O. Akingbala, G.B. Oguntimein and A.O. Sobande: Physico-chemical properties and acceptability of yam flour substituted with soy flour 73–80
Instructions to authors 1995 81–84

Volume 48, No. 2

E.N. Onyeike, E.O. Ayalogu and S.G. Uzogara: Influence of heat processing of African yam bean seed (*Sphenostylis stenocarpa*) flour on the growth and organ weights of rats 85–93
R. Mongeau, G. Sarwar, R. Brassard and H.G. Botting: Effects of amylose and wheat bran on the levels of blood serum urea nitrogen (BUN), other blood parameters, growth and fecal characteristics in rats 95–105
V.R. Devaraj and N.H. Manjunath: Effect of cooking on proteinase inhibitors of *Dolichos* lablab bean (*Dolichos lablab perpureus* L.) 107–112
E.O.H. Addy, L.I. Salami, L.C. Igboeli and H.S. Remawa: Effect of processing on nutrient composition and anti-nutritive substances of African locust bean (*Parkia filicoidea*) and baobab seed (*Adansonia digitata*) 113–117
K. Parvathy Parameswaran and B. Thayumanavan: Homologies between prolamins of different minor millets 119–126
M.A. Bock, J. Sanchez-Pilcher, L.J. McKee and M. Ortiz: Selected nutritional and quality analyses of tomatillos (*Physalis ixocarpa*) 127–133

E.U. Essien, G.J. Esenowo and M.I. Akpanabiatu: Lipid composition of lesser known tropical seeds 135–140
G.I.O. Badifu, M.A. Akpapunam and V.M. Mgbemere: The fate of beta-carotene in processed leaves of fluted pumpkin (*Telfairia occidentalis* Hook. f.): A popular vegetable in Nigerian diet 141–147
V.V. Agte, M.K. Gokhale, K.M. Paknikar and S.A. Chiplonkar: Assessment of pearl millet vs rice based diets for bioavailability of four trace metals 149–158
S. Jood, A.C. Kapoor and R. Singh: Amino acid composition and chemical evaluation of protein quality of cereals as affected by insect infestation 159–167
V.M. Gabert, G. Brunsgaard, B.O. Eggum and J. Jensen: Protein quality and digestibility of new high-lysine barley varieties in growing rats 169–179
Instructions to authors 1995 181–184

Volume 48, No. 3

M.S. Al-Jassir, A.I. Mustafa and M.A. Nawawy: Studies on samh seeds (*Mesembryanthemum forsskalei* Hochst) growing in Saudi Arabia: 2: Chemical composition and microflora of samh seeds 185–192
V. Jyothi and S. Sumathi: Effect of alkali treatments on the nutritive value of common bean (*Phaseolus vulgaris*) 193–200
L. Sunanda, S. Sumathi and V. Venkatasubbaiah: Relationship between soil zinc, dietary zinc and zinc nutritional status of humans 201–207
E.O. Akpanyung, A.P. Udoh and E.J. Akpan: Chemical composition of the edible leaves of *Pterocarpus mildbraedii* 209–215
C.Y. Aremu, M.A. Agiang and J.O.I. Ayatse: Nutrient and antinutrient profiles of raw and fermented cocoa beans 217–223
H.N. Ene-Obong: Content of antinutrients and in vitro protein digestibility of the African yambean, pigeon and cowpea 225–233
T.C. Mosha, R.D. Pace, S. Adeyeye, K. Mtebe and H. Laswai: Proximate composition and mineral content of selected Tanzanian vegetables and the effect of traditional processing on the retention of ascorbic acid, riboflavin and thiamine 235–245
S. Prathibha, B. Nambisan and S. Leelamma: Enzyme inhibitors in tuber crops and their thermal stability 247–257
M. Al-Bachir: Factors affecting storability of apples in Syria 259–267
M.A. Zulet and J.A. Martínez: Corrective role of chickpea intake on a dietary-induced model of hypercholesterolemia 269–277

Volume 48, No. 4

A.I. Mustafa, M.S. Al-Jassir, M.A. Nawawy and S.E. Ahmed: Studies on samh seeds (*Mesembryanthemum forsskalei* Hochst) growing in Saudi Arabia: 3: Utilization of samh seeds in bakery products 279–286
C.Y. Aremu, M.A. Angiang and J.O.I. Ayatse: Protein profiles and organoleptic properties of bread from wheat flour and full-fat or defatted fermented cocoa bean powder 287–295
H.N. Ene-Obong and I.C. Obizoba: Protein quality of some Nigerian traditional

diets based on the African yambean (*Sphenostylis stenocarpa*) and pigeon pea (*Cajanus cajan*) 297–309
T.A. El-Adawy: Effect of sesame seed proteins supplementation on the nutritional, physical, chemical and sensory properties of wheat flour bread 311–326
S. Krishnakumari and B. Thayumanavan: Content of starch and sugars in in vitro digestion of starch by α-amylase in five minor millets 327–333
O.C. Kemdirim, O.A. Chukwu and S.C. Achinewhu: Effect of traditional processing of cassava on the cyanide content of gari and cassava flour 335–339
S.C. Achinewhu, C.C. Ogbonna and A.D. Hart: Chemical composition of indigenous wild herbs, spices, fruits, nuts and leafy vegetables used as food 341–348
Z. Barampama and R.E. Simard: Effects of soaking, cooking and fermentation on composition, in-vitro starch digestibility and nutritive value of common beans 349–365
Announcements 367–368
Contents Volume 48 / Author Index 369–372
